

Marvin Carl Delaney

Sr. Pastor South Park Baptist Houston Tx.
Houston Community College Computer Science Instructor
Superintendent / Founder of University Park Academy
South by Southeast Community Development Corp. Founder

Marvin Carl Delaney above Superintendent of University Park Academy

10th year of rescuing students through the non traditional education private school setting. Over 2,000 students graduated with the help of an able staff of highly skilled dynamic educators with the heart of providing a bridge to college after a heartbreaking experience of losing the battle with a Texas TAKS Test... losing the battle of missing graduation after 12 years of school... by missing STARS Test by 1 point. There is no Diploma in Texas for failing the STAARS exit Test ...even after 12 successful years of school. So Texas allows private schools to legally graduate students, with a legitimate transcript, to transfer those credits to a private school. After finishing the necessary course work private schools invoke Texas law 51.9241 validating the diploma. Here we are: University Park Academy is the bridge over troubled waters. By transferring your earned high school credits to our school you are able to meet the State of Texas mandate of 22 credits plus 1 course in citizenship and you are off to college, military, or training school.

Marvin C. Delaney teaches computer science technology at the Chip level. He teaches software internals especially the power of the kernel part of the Operating System, Microsoft suite including Word Process, Database, Presentation Software and Spreadsheet Software. Marvin leads the community south east area in redevelopment through the South by Southeast Community Development Corporation Inc.
